

UK Care
Services

About

Welcome to UK Care Services. We are a supported living and domiciliary care provider, based in London. We provide support and care to people with learning difficulties, autism, physical disabilities and mental health problems

Service

We, as an organization, provide the best possible support available for people and families who face challenges in their life. We make arrangements for the support staff and promote independence within the areas of daily living for individuals

Activities

Trips and holidays are arranged for our service users as we believe in providing person-centered care. These events take place on a regular basis. Social events and BBQ parties are organized for all the service users, which gives them an opportunity to so-

Background

Our manager has over 6 years of experience within the care industry. After graduating from Anglia Ruskin University with a Master's Degree, he completed his Level 5 Diploma in Health and Social Care

Health
Action Plan

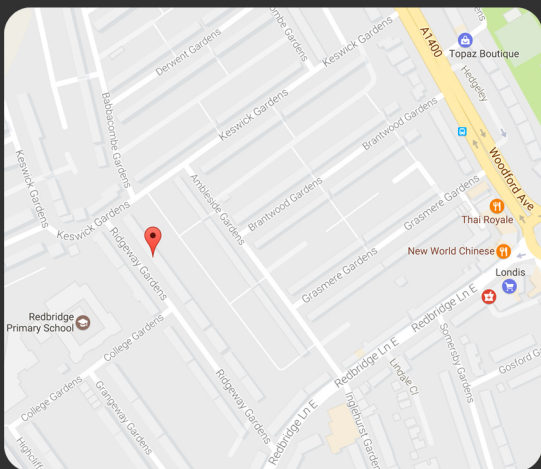

UK Care Services is a welcoming supported living service, which endeavors to provide an exceptional level of support to service users who experience challenges in their day-to-day lives

Mission Statement

“Empowering individuals by delivering exceptional care services from compassionate personnel in the highest quality homes”

Members

Our services are mainly offered to the local council and NHS. We also accept private service users. Our admission process starts with an Initial assessment carried out upon request; and a decision is reached with all the professionals involved regarding a placement.

UK Care Services (Supported Living) Ltd
